With the support of the Erasmus+ programme of the European Union
Objective
The aim of this online summer course is to give participants all the necessary tools for successful implementation of the GDPR in their daily practice. It will provide them with comprehensive knowledge of the fundamentals of European data protection law through the interactive study of both relevant legislation and case law. The course will combine presentations and practical workshop activities, all led by high-level experts in the field.

Who should attend?
Lawyers in private practice, in-house counsel, EU and national civil servants seeking an introduction to European data protection law.

You will learn…
- how to design a corporate compliance strategy on personal data protection
- how to exercise the tasks assigned to the Data Protection Officer
- how to build a Data Protection Impact Assessment
- how to deal with the challenges of data protection when using new technologies and social networks
- about the legal framework for international personal data transfers
- about post-Brexit European data protection

Interactive Webinar
The course will be hosted on ERA’s own online training platform. You will be able to interact immediately and directly with our top-quality speakers and other participants, and work collaboratively on case studies. We will make the most of the technical tools available to deliver an intensive, interactive training experience. As the platform is hosted on our own server, the highest security settings will be applied to ensure that you can participate safely in a high-quality online training environment.
